

## Receive Payments

You can transfer the funds into your current account, as an option

Funds are credited to your HSBC Global Wallet instantly

HSBC receives and processes the transactions

Your customer can send funds with local addressable information

**Scenario:** With HSBC Global Wallet, you can receive USD payment from your US-based customer instantly without the need for international clearing. This means time and money saved! Receiving funds faster frees up capital for your other payments too.

## Send Payments

Top up your HSBC Global Wallet from your current account

Raise a payment instruction to pay your overseas supplier

HSBC disburses payments to the intended recipient

Your overseas supplier receive the transferred funds

**Scenario:** You can send the received USD with HSBC Global Wallet to your supplier in Malaysia to secure future inventory.

Alternatively, you can pay them in MYR, allowing your supplier to receive funds on the same day or next day.
